Railroad Strike Continues.

Rome, April 20.—The railroad strikes continue and the situation is practically unchanged. Several thousand emigrants, mostly going to America, could not leave this city because it was impossible for them to reach Naples. Food and provisions at Florence are becoming scarce.

WILL FORCE BATTLE

ADMIRAL TOGO ORDERED TO ATTACK RUSSIAN WARSHIPS AT KAMRANH BAY.

PROMPT ACTION IMPERATIVE

JAPS MUST DEFEAT ROJESTVENSKY BEFORE NEBOGATOFF'S SQUADRON ARRIVES.

London, April 20.—The Telegraph's correspondent at Tokio declares Togo is to sail at once for Kamranh bay and engage the enemy. The decision that the Japanese admiral should take the initiative and force the fighting was arrived at after five hours' momentous conference of the elder statesmen, the premier and the cabinet.

At this conference the likelihood of the Russian squadron remaining in the shelter of a friendly French Cochinchina port until joined by Vice Admiral Nebogatoff was considered as a new and much graver danger to the situation. The attitude of the French government in thus giving shelter to Rojestsvenky was declared a matter for serious after consideration, but instant action on the navy's part was deemed imperative.

The momentous order was therefore, so the correspondent declares, forwarded to Togo at his rendezvous to gather his fleet together and sail for Kamranh bay and force the fighting. On the supposition that the Japanese main fleet is in rendezvous at Pescadore Islands and that Rojestsvenky is at Kamranh bay, which is 800 miles distant across the China sea, the Japanese admiral should reach the scene of action in less than three days and Sunday see a battle.

JAPAN FILES A PROTEST.

Objects to Presence of Russian Squadron in Kamranh Bay.

London, April 20.—The British public is only now beginning to realize how much depends upon Togo's skillful conduct of the approaching naval contest. Until Vice Admiral Rojestsvenky actually arrived in the straits of Malacca there was a disposition to ridicule the efforts of the Russian squadron; but now that there is seen to be a growing likelihood of Vice Admiral Nebogatoff joining Rojestsvenky before the fateful struggle opens, lukewarm interest is deepening into anxiety.

Tokio correspondents state that Japan has addressed a protest to France on the Russian Pacific squadron's presence in Kamranh bay, but that France has not yet replied.

The Daily Telegraph's Hongkong correspondent states that two steamers which passed close to Kamranh bay on Sunday report that no Russian vessels were then visible. No news, however, has yet reached London to show that the Russians have left Kamranh bay and it is assumed that they are still there.

IRRITATION TOWARDS FRANCE.

Aroused in Japan by Alleged Violation of Neutrality.

Tokio, April 20.—Although not reported directly, it is believed that the Russian Pacific Pacific squadron continues the occupation of Kamranh bay, or some other port of Annam, where it is expected to remain until joined by the Third Russian Pacific squadron.

The report that Admiral Rojestsvenky is maintaining a patrol and examining neutral shipping off Kamranh bay increases the irritation toward France for permitting the use of that port as a base of operations. The Japanese government continues silence regarding the representations on this subject which have been made to France.

The press, however, continues its agitation against France, demanding vigorous action.

JAPS TAKE PRECAUTIONS.

Send But Few Transports to the Port of Newchwang.

Yinkow, April 20.—Few transports are now arriving at Newchwang. This is in contrast with the rush of traffic since the opening of the Liao river and indicates that precautions are being taken against possible interference by the Russian Pacific squadron.

Vast accumulation of stores have already been made along the Japanese lines of communication, assuring full supplies to the armies in the field, even if the transport service is interrupted.

Rebels Kill German Troops.

Berlin, April 20.—General von Trompa has telegraphed from Kube, German Southwest Africa, that in fighting with rebels the Germans had two officers and several men killed.

TRYING TO CUT THE RAILROAD.

Chinese Bandits Prove Troublesome to Russians.

Harbin, April 20.—There was a determined attempt on the night of April 17 to cut the railroad between Harbin and Vladivostok, a formidable body of Chinese bandits making an attack near the station of Imanpo, 100 miles east of Harbin. After a desperate fight which lasted several hours the bandits were driven off and dispersed.

Many smaller companies of Chinese bandits are roving in the rear of the Russian army, but disappear when pursued.

It is thought probable that they are Manchurians, who scatter to the villages when they find themselves in danger.

There are various reports of a wide turning movement at Tsitsihar or eastward of that point, but as yet these rumors are apparently unfounded. The vigor of the skirmishes taking place on the east flank of the Russian army, however, seems to indicate that the Japanese are planning to thrust northeastward and throw a force between Harbin and Vladivostok.

JAPS OCCUPY TUNGHUS.

Russians Forced to Evacuate That Place.

Tokio, April 20.—An official report from Manchurian headquarters says: "A Japanese force advanced toward Tunghus, fifty miles east of Hsicheng, and occupied that place on April 15. The enemy retreated to the north."

"There has been no change in the situation elsewhere."

Wisconsin Millionaire Dead.

Appleton, Wis., April 20.—Naval Babcock of Neenah, Wis., sixty-eight years old, died during the day at Winnetka, Ill. Mr. Babcock was a millionaire and the wealthiest paper manufacturer in the state. He was a member of the original firm which became the Kimberly & Clark company.

SENTENCED TO HANG

C. D. CRAWFORD TO EXPIATE

MURDER OF HEINE LUNDEEN ON THE GALLOWS.

Elk River, Minn., April 20.—C. D. Crawford, convicted of the murder of Heine Lundeen, was brought into court at 9 a. m. and sentenced to death by hanging.

Arthur C. Losee, alias Parmer, who was convicted of murder in the third degree, was sentenced to the highest penalty—thirty years in the penitentiary. Losee was Crawford's companion in a boxcar last November when Crawford shot and killed Lundeen.

Crawford was taken back to Minneapolis and Parmer will be taken immediately to Stillwater.

Before starting for Stillwater Parmer confessed his share in killing young Lundeen.

MAKES A WHIRLWIND FINISH.

Commissioner Garfield Ends His Investigation of Oil Fields.

Independence, Kan., April 20.—James R. Garfield, commissioner of corporations, made a whirlwind finish during the day of his investigations of the Kansas oil fields and left at night for Kansas City. On his return from Bartlesville, I. T., where he went during the day, he conferred with all the officers of the Kansas Oil Producers' association and State Senator Fitzpatrick, their attorney.

Mr. Garfield wished it understood that he does not personally take testimony, but merely examines the surface of things. He leaves the detail work of taking testimony to his assistants, sixteen of whom are now busy in this territory. Mr. Garfield said that he had been very much surprised at the extent of the Kansas oil field, and the amount of work required in this investigation. He said he had a good general idea of both sides of the controversy.

One of the developments of the day is the fact that the National Transit company, which is the corporate name under which all the Standard pipe lines east of the Mississippi river are operated, is the owner of all except six shares of the stock of the Prairie Oil and Gas company. The latter company, through its president, W. J. Young, denies that the Standard owns or controls the Prairie company.

WILL SUSPEND PUBLICATION.

St. Paul Globe to Retire From Business After Long Career.

St. Paul, April 20.—The St. Paul Globe, the largest Democratic daily in the Northwest, formally announces this morning that on the first of May the paper will suspend publication after being in business nearly thirty years. Lack of advertising patronage is given as the reason of the proposed suspension.

KOCH MURDER TRIAL

ONLY ONE JUROR SECURED OUT OF THE REGULAR PANEL AT MANKATO, MINN.

IS CONFIDENT OF ACQUITTAL

DEFENDANT EXPECTS THE SECOND TRIAL TO END IN HIS BEING SET FREE.

Mankato, Minn., April 20.—One juror was the net result of the first day's effort to get a jury for the second trial of Dr. George R. Koch of New Ulm. This juror is Joseph Wadell of Beauford, a well known farmer who has resided in the county thirty years. He is forty-five years of age and is said to be a fair and conscientious man. The entire regular panel was exhausted in getting this juror, and Judge Cray issued a special venire for fifty more jurors, returnable at 9 a. m. Some of these have been selected from the city, and Sheriff Williams went through the townships to the east of Mankato to get the rest.

Judge Cray appointed as triers Judge W. N. Plymat, W. A. Funk and C. N. Andrews. Most of the challenges were for actual bias, and were passed upon by the triers, but the state was obliged to use two of its ten peremptory challenges, while the defense used only one of its twenty. Twenty-eight men were examined, two of the regular panel of thirty having been excused.

The defendant sat behind his five attorneys, beside his aged father, and appeared to be somewhat melancholy. At the same time, he confidently expects an acquittal this time, and neither he nor his relatives concede that another disagreement is possible.

Koch's attorneys are Brown & Abbott of Winona, Senator George W. Somerville of Sleepy Eye, Pfau & Pfau and A. E. Clark of this city. The state is represented by former Attorney General W. H. Childs, County Attorney S. E. Wilson of this city and Attorney Albert Pfander of New Ulm.

THE TRIAL OF NAN PATTERSON.

Jury of Married Men to Decide Fate of Show Girl.

New York, April 20.—The jury which is to decide the fate of "Nan" Patterson, on trial for murdering "Caesar" Young, the bookmaker, was completed at 7:40 p. m., when Recorder Goff adjourned court until next Monday morning.

Miss Patterson is to again face a jury composed almost entirely of married men, only two of the accepted panel of twelve being single, one a bachelor, the other a widower.

Most of the jurymen are men of middle age and beyond. Many of them have large families, some grown daughters who are married.

The defendant will take the stand again during the present trial and tell her story of how Young met his death in the hansom cab last June as he was driving to the steamship pier to join his wife on a trip to Europe. It is also said that Miss Patterson is anxious that her sister, Mrs. J. Morgan Smith, should become a witness for the defense, although it has not been determined as yet either by the prosecution or the girl's lawyers just what part the J. Morgan Smiths shall play.

WHEAT MARKET ERRATIC.

Price Goes Up and Then Takes a Downward Course.

Chicago, April 20.—When the closing bell struck on 'change Wednesday the leading question with the wheat trade was "did the bull clique get out of 2,000,000 or 3,000,000 bushels through two or three houses without starting anything like a panic in the pit?"

The May price was pushed up to \$1.15 1/2 early on buying which was traced to Armour, the brokers thought. While this was going on Councilman brokers were sellers of 500,000 to 750,000 bushels. Later, brokers thought to be acting for the Gates clique took a hand in the selling, while the May price broke from \$1.15 1/2 to \$1.13 1/2.

There are hints that there was some understanding between the big bull leaders and the big shorts. For this reason many were predicting for the May deal in wheat an early end without any fireworks. The market for May wheat closed heavy, with the price showing a decline of 1 1/2 c compared with the final figures of the previous day.

Bachelor Tax Bill Postponed.

Madison, Wis., April 20.—The bill to tax bachelors \$10 a year was the special order of business in the assembly at night and after an hour and a half of debate was indefinitely postponed by a viva voce vote.

Of Interest to Bicycle Riders

It looks now as though the enthusiasm of the bicycle riders is about to be restored in Brainerd as well as elsewhere; the records from all over the country showing increased sales and riders. A. L. Hoffman & Co., sold six wheels last Saturday. We are sure of good paths this year as R. D. King will act as superintendent and all riders know that he built the only good paths we ever had in the city. Reports from other cities are that the old riders are rummaging their attics and sheds and polishing up their old wheels to get ready for the finest recreation on earth. If you will dig up your old wheel and telephone to Hoffman, he will send for it, fix it up and return it charging you as moderate a price as first class work will admit of.

The bicycle license tags have arrived and will be on sale at the usual places. The price will be 50 cts. each, and work will commence on the paths at once.

A. L. Hoffman & Co., handle the old reliable lines. The Columbia, Rambler, Imperial, White Flyers and Bander. Prices range from fifteen to one hundred dollars, for cash or on easy monthly payments.

If you do not own a wheel, Hoffman will rent you a first class Chainless Bicycle, at as low a rate as charged by other places for old skates.

FARMERS GATHER IN LARGE NUMBERS

Those Interested in the Sugar Beet Industry Gather at the Wholesale House

ABOUT 100 FARMERS PRESENT

Mr. E. Von Boeckman, Agriculturist, Addresses Gentlemen on the Subject.

This afternoon at 2 o'clock was the appointed time for the farmers to meet at the Brainerd Wholesale Grocery company's office to hear something to their advantage relative to the sugar beet industry. About 100 farmers responded and the meeting, which is still in session at the time of going to press, is very interesting and instructive.

Mr. E. Von Boeckman, agriculturist, is present and is addressing the farmers and it is likely that before they go home tonight the majority will have signed contracts and will be ready to launch in the sugar beet business.

Tomorrow afternoon the Ladies' Aid of the First Baptist church will meet with Mrs. Bartlett, 1004 East Pine street. All members are requested to be present.

Chief Bennett is now the possessor of a fine driving horse, having bought a little pacing mare from A. Purdy, and any time there is a fire now it is dollars to doughnuts that the popular chief will be "Johnny on the spot."

John Clark was brought down from Aitkin today and taken to St. Joseph's hospital. He was run over yesterday by a heavy dray wagon, two wheels passing over his body and he was quite severely injured. It is thought that he may have been injured internally.

Little Miss Nora King fell from a large box while playing yesterday afternoon and broke her arm. Dr. J. A. Thabes was called and the little girl's arm was set and she is feeling as well as might be expected under the circumstances. She is the daughter of Mr. and Mrs. S. S. King, Ninth street north.

There was an alleged minstrel performance at the Brainerd opera house last night. Mahara's minstrel aggregation struck town and attempted to give a show which they claimed was of some merit. It was so rotten it was disgusting and a great big burly coon, making a stab at playing end man, had the gall to twit the people present about some empty seats at the front of the theatre.

Sale of Ditch Bonds.

Sealed bids will be received at the county auditor's office, Brainerd, Minn., up to 2 o'clock p. m., May 2nd, 1905, for the purchase of bonds of Crow Wing county, Minn., in the aggregate sum of eleven thousand eighty-five and 77-100 dollars, said bonds to bear interest at 6 per cent per annum, interest payable annually, and be in the denomination of \$100 each, payable in ten years, but may be payable at any time after two years at the option of the board of county commissioners of said county. Said bonds are issued for the purpose of defraying the cost of constructing ditches numbered one (1), four (4), five (5), six (6) and nine (9), of said county. The board of county commissioners of said county reserve the right to reject any or all bids.

NORTHERN LEAGUE

Manager Reilly is confident that he has made no mistake in selecting W. F. White as playing manager of the St. Cloud-Brainerd team. Mr. White has a good string of players on the line and in a few days the lineup of the team which is to make a try in the Northern league will be given out. The men signed will report May 1.

It is understood that "Hank" Williams is going to make a try for a place on the St. Cloud-Brainerd team as a first baseman.

Most of the leaguers are getting in line and are getting some good practice.

The "White Sox" will report at Duluth on or about the first of May and will go from there for a tour of the copper country. It will have the advantage over the other Northern league teams by having at least two weeks' extra practice. The other clubs have not yet commenced spring work, and will not do so until about May 1.

The sporting writer for the Duluth News-Tribune suggests that the St. Cloud-Brainerd baseball team be called the "Giants." This suggestion seems very fair in view of the fact that Manager White has signed several big men. Howell and Hjelle are both men six foot three in height and one or two others pass the six foot mark. This cognomen seems better than that of "Twins." Another writer suggests the name of "The Saints," and still another the "Briny Saints." It is up to the fans.—Grand Forks Herald.

Plead Guilty at Walker to Assault in the First Degree Before Judge Spooner

BRADLEY IS STILL IN HOSPITAL

Attorney Ryan, of this City, Defended Deloney, Who is Considered a Lucky Man.

Attorney M. E. Ryan has returned from Walker where he went to defend Michael Deloney, the man arrested and indicted on the charge of assault in the first degree. It will be remembered that Deloney shot a man by the name of Bradley in a saloon row at Ball Club, and for a time it was thought that Bradley could not possibly live. He is still alive, however, although his condition is very precarious.

Deloney pleaded guilty to the charge of assault in the first degree and Judge Spooner sentenced him to serve eight years in the penitentiary at Stillwater.

THE SHAKESPEARE MINE

The Soo News Has Something Interesting Regarding the Mining Property at Webbwood.

A streak of pay ore 50 feet wide has been found on the 150 foot level, and the average results are beyond the highest estimates made by experts.

Mr. Wood, manager of the Shakespeare mine, arrived from Webbwood Saturday evening bringing three more gold bricks valued at \$3,000, the results from three hundred tons of ore crushed by five stamps in 23 days, or an average of thirteen tons per day of 24 hours.

In addition to the gold bullion, five tons of concentrates valued at \$150 are piled up in the mill. The loss in tailings being \$2.50 per ton, making altogether the average value of the rock treated \$13 per ton.

On Mr. Wood's arrival at the Leland he was surrounded by a number of people eager to learn the news from the mine. In answer to the question, "How are things going at the Shakespeare?" he replied:

"Fairly well. Owing to the soft weather we have been bothered some with water, and have had some difficulty in getting in our new stamps, but the machinery is now all on the ground and with good luck we expect to have ten stamps dropping by the twelfth of the month."

"How about the mill run?"

"Well, we ran stamps for sixteen days, but we got a new stem for the odd stamp and for the last ten days five stamps have been pounding, so that we figure we have averaged five stamps for 23 days and crushed 300 tons, or thirteen tons a day. When we get things in good shape we expect to be able to average three tons to the head in 24 hours, or say 30 tons a day for the ten stamps, and run 26 days a month."

"How about the yield?"

"The yield is much better than anyone expected. We picked up \$10 a ton from the amalgamating tables, besides are getting 1 1/2 to 2 per cent in concentrates worth \$30 a ton, while \$2.50 per ton is going into the tailings."

"Is that a loss?"

"Yes, at least for the present, as we are running low and high grade ore all in together."

"Later on, with a larger mill, we will sort the ore and run it through separate batteries and save the gold closer. We will also add a cyanide plant, and cyanide all the pulp and reduce the loss to a minimum of say 40 to 50 cents a ton."

"Isn't the average lower than for your first run?"

"That's true, but we are not running the mill for the benefit of stockholders or we might have selected our ore and more than doubled the average."

"How is that?"

"We are developing the mine and trying to get it in shape for larger production, for this last run we took 50 tons from the 100 foot level by widening our stopes from six to twelve feet. On the 150 level we have extended our cross cut 20 feet to the south making it 50 feet from the shaft across the formation and every pound of rock taken out, rich and poor, has gone to the mill. No doubt some of the ore is very low grade, but our aim is to get at the general average across the mineralized zone, and so far the results are far beyond our most sanguine expectations. Experts claim, with a large body, \$3 ore will pay, and we are getting better than \$10 across the entire 50 feet."

"What will it cost to mine?"

"That will depend somewhat on the scale of operations. Any miner would gladly take a contract to mine a stope 50 feet wide at 50 cents to \$1 per ton."—Soo News.

It will be remembered that Deloney shot a man by the name of Bradley in a saloon row at Ball Club, and for a time it was thought that Bradley could not possibly live. He is still alive, however, although his condition is very precarious.

Deloney pleaded guilty to the charge of assault in the first degree and Judge Spooner sentenced him to serve eight years in the penitentiary at Stillwater.

THE SHAKESPEARE MINE

The Soo News Has Something Interesting Regarding the Mining Property at Webbwood.

A streak of pay ore 50 feet wide has been found on the 150 foot level, and the average results are beyond the highest estimates made by experts.

Mr. Wood, manager of the Shakespeare mine, arrived from Webbwood Saturday evening bringing three more gold bricks valued at \$3,000, the results from three hundred tons of ore crushed by five stamps in 23 days, or an average of thirteen tons per day of 24 hours.

In addition to the gold bullion, five tons of concentrates valued at \$150 are piled up in the mill. The loss in tailings being \$2.50 per ton, making altogether the average value of the rock treated \$13 per ton.

On Mr. Wood's arrival at the Leland he was surrounded by a number of people eager to learn the news from the mine. In answer to the question, "How are things going at the Shakespeare?" he replied:

"Fairly well. Owing to the soft weather we have been bothered some with water, and have had some difficulty in getting in our new stamps, but the machinery is now all on the ground and with good luck we expect to have ten stamps dropping by the twelfth of the month."

"How about the mill run?"

"Well, we ran stamps for sixteen days, but we got a new stem for the odd stamp and for the last ten days five stamps have been pounding, so that we figure we have averaged five stamps for 23 days and crushed 300 tons, or thirteen tons a day. When we get things in good shape we expect to be able to average three tons to the head in 24 hours, or say 30 tons a day for the ten stamps, and run 28 days a month."

"How about the yield?"

"The yield is much better than anyone expected. We picked up \$10 a ton from the amalgamating tables, besides are getting 1 1/2 to 2 per cent in concentrates worth \$30 a ton, while \$2.50 per ton is going into the tailings."

"Is that a loss?"

"Yes, at least for the present, as we are running low and high grade ore all in together."

"Later on, with a larger mill, we will sort the ore and run it through separate batteries and save the gold closer. We will also add a cyanide plant, and cyanide all the pulp and reduce the loss to a minimum of say 40 to 50 cents a ton."

"Isn't the average lower than for your first run?"

"That's true, but we are not running the mill for the benefit of stockholders or we might have selected our ore and more than doubled the average."

"How is that?"

"We are developing the mine and trying to get it in shape for larger production, for this last run we took 50 tons from the 100 foot level by widening our stopes from six to twelve feet. On the 150 level we have extended our cross cut 20 feet to the south making it 50 feet from the shaft across the formation and every pound of rock taken out, rich and poor, has gone to the mill. No doubt some of the ore is very low grade, but our aim is to get at the general average across the mineralized zone, and so far the results are far beyond our most sanguine expectations. Experts claim, with a large body, \$3 ore will pay, and we are getting better than \$10 across the entire 50 feet."

"What will it cost to mine?"

"That will depend somewhat on the scale of operations. Any miner would gladly take a contract to mine a stope 50 feet wide at 50 cents to \$1 per ton."—Soo News.

OFFICER AFTER THIEVING BOYS

Two Boys in Police Court This Morning Charged With Stealing Quantity of Brass

WERE FINED \$10 BY THE COURT

Chief Simmons Is Also Having Trouble With Boys Who Steal Brass Connections

There was a hearing in police court this morning and two young men by the names of Chas. Olson and Albert Sauvageau were fined \$10 apiece by Judge Warner, having pleaded guilty to the charge of stealing a quantity of brass from the Northern Pacific shops in this city.

The arrest of these young men was the culmination of an investigation which has been carried on for some time by Frank R. Shong, special agent of the Northern Pacific. He has been in the city for days and he says it is a caution the amount of stuff that is stolen from the shops by boys. He expects to make a thorough crusade against these culprits and will bring them to justice. He also states that the boys are not entirely to blame. There are any number of people in the city who make a habit of buying this brass and other material from the boys.

Chief of Police Simmons has also been having the time of his life with these youngsters. He has been for days on the trail of young boys who steal brass and lead connections from water mains in the yards of people in the city. Today he caught several of them with the goods right on them and they were given a severe reprimand and allowed to depart, with the promise that if they are caught at it again they will be dealt with rather strenuously.

Frightful Suffering Relieved.
Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." COUNTY COMMISSIONERS

Proceedings of the Board of County Commissioners. Meeting Held April 17th, 1905.

Pursuant to call for a special meeting, board met at 2 o'clock p. m. for the purpose of making application for a loan for ditch fund, all members being present.

Commissioner Gardner offered the following resolution and moved its adoption:

Resolved, that the County of Crow Wing issue its bonds in the sum of eight hundred nine and 84-100 dollars for the purpose of defraying the expenses incurred or to be incurred in locating, constructing and establishing ditch No. one (1) in said county, that said bonds to be in the amount of \$100 each, except the last one may be for a less amount; that said bonds bear interest at the rate of six per cent per annum, interest payable annually. Said bonds shall be payable ten years after date, but payable at the option of the county at any time after two years.

Whereupon said resolution was unanimously adopted on a call for ayes and nays.

Commissioner Erickson offered the following resolution and moved its adoption:

Resolved, that the county of Crow Wing issue its bonds in the sum of three thousand seven hundred sixty-seven and 46-100 dollars, for the purpose of defraying the expenses incurred or to be incurred in locating, constructing and establishing ditch No. four (4) in county, that said bonds to be in the amount of \$100 each, except the last one may be for a less amount; that said bonds bear interest at the rate of six per cent per annum, interest payable annually; said bonds shall be paid ten years after date, but payable at the option of the county at any time after two years.

Whereupon said resolution was unanimously adopted on a call for ayes and nays.

Commissioner Andrews offered the following resolution and moved its adoption:

Resolved, that the County of Crow Wing issue its bonds in the sum of two thousand seven hundred eighty-five and 10-100 dollars for the purpose of defraying the expenses incurred or to be incurred in locating, constructing and establishing ditch No. five (5) in said county, that said bonds to be in the sum of \$100 each, except the last one may be for a less amount; that said bonds bear interest at the rate of six per cent per annum, interest payable annually. Said bonds shall be payable ten years after date, but payable at the option of the county at any time after two years.

Whereupon said resolution was unanimously adopted on a call for ayes and nays.

Commissioner Reid offered the following resolution and moved its adoption:

Resolved, that the County of Crow Wing issue its bonds in the sum of two thousand seven hundred thirty-six and 08-100 dollars, for the purpose of defraying the expenses incurred or to be incurred in locating, constructing and establishing ditch No. six (6) in said county, that said bonds to be in the amount of \$100 each, except the last one may be for a less amount; that said bonds bear interest at the rate of six per cent per annum, interest payable annually. Said bonds shall be payable ten years after date, but payable at the option of the county at any time after two years.

Whereupon said resolution was unanimously adopted on a call for ayes and nays.

Commissioner Gardner offered the following resolution and moved its adoption:

Resolved, that the County of Crow Wing issue its bonds in the sum of nine hundred eighty-seven and 29-100 dollars, for the purpose of defraying the expenses incurred or to be incurred in locating, constructing and establishing ditch No. nine (9) in said county, that said bonds be in the amount of \$100 each, except the last one may be for a less amount; that said bonds bear interest at the rate of six per cent per annum, payable annually. Said bonds shall be payable ten years after date, but payable at the option of the county at any time after two years.

Whereupon said resolution was unanimously adopted on a call for ayes and nays.

Auditor was on motion duly carried, directed to advertise the sale of said bonds in the Brainerd Dispatch and the Chicago Inter Ocean.

Sunday School Convention at Deerwood Largely Attended and Thoroughly Enjoyed

DELEGATES RETURN LAST NIGHT

Albert Angel is Re-elected President and J. W. Flickwir Secretary of Association.

The delegates who went to Deerwood to attend the convention of the Crow Wing County Sunday School association returned last night and they all report that the meeting was the most successful of the kind ever held in this county.

A large delegation was present from Brainerd, nearly fifty people, and many took prominent parts on the program.

Rev. John Orchard, field worker for Minnesota and North Dakota, was at all the sessions and some of the strongest clergymen and Sunday school workers of the northern part of the state were there and took part. The inspiration and valuable instructions received will be a great help to all who were present.

The people of Deerwood covered themselves with glory in entertaining the large number of delegates.

The following officers were elected:

President—A. Angel.
Vice Pres.—C. Bruhn.
Secretary—J. W. Flickwir.
Treasurer—Mrs. Fred Luken.

The convention next year will be held at Pequot.

"UNCLE TOM'S CABIN."

Stetson's production of "Uncle Tom's Cabin" is booked for a performance at the Brainerd opera house for Thursday, April 27. Uncle Tom, though old, appeals to all, both young and old, refined or coarse, the educated or uneducated. It is the savor of the soil, the approved of nature, which attracts, and it must be admitted, even by the blasé amusement seeker that "Uncle Tom's Cabin," when produced in a good manner, possesses a charm to be found in no other form of theatrical entertainment. Yet, like everything else in this progressive age, Stetson's Uncle Tom has improved with time, and each year brings out fresh novelties, new features, pleasing effects. With such an organization as the Stetson company, the old drama, which has been seen much of late years, is enhanced with new ideas to give the air of novelty. Watch for the street parade.

"A ROYAL SLAVE."

A coming engagement at the Brainerd opera house is of more than ordinary interest to theatre goers. "A Royal Slave" is a beautiful Christian story of Old Mexico, a series of pictures of life in that country of romance.

Ministers and priests have been unanimous this season in exhorting their congregations to go and see the production of "A Royal Slave," because it savors more of the atmosphere of the chapel than the theatre. It has not been an uncommon sight to see the stage boxes filled with clergymen of all denominations witnessing a performance of this morally uplifting drama.

DR. CHAS. RUSSELL

Psychic Healer of Minneapolis, Minn.

Heals when doctors and medicines fail and hope is gone
Makes the Lame Walk and the Deaf Hear.

At Walker's Hall

FRIDAY EVENING, APRIL 21st.

Doors open at 7:30, begin at 8.

FREE TO EVERYBODY

All intelligent and thoughtful people will find this a most remarkable exhibition.

Dr. Russell, apart from being a naturally gifted healer, is a graduate of the college of physicians and surgeons class of 1881, Keokuk, Iowa. Attended two terms in the Eclectic Institute of Cincinnati, Ohio; graduate of the Illinois school of Electro Therapeutics, and the Montreal college of Theoretical and applied optics. He has for many years devoted his energies to the study of Magnetic or Psychic healing. He has sought and gained every particle of knowledge regarding it, and his success in this field has been put forth in large space in the Minneapolis papers, where he resides. Psychic or Magnetic healing has been known and practiced from the remotest period of human history and is a true science. It is based upon scientific principles. It is nature's own remedy, and because of this, it is the very science of truth.

AT RICHMOND HALL

A large Audience Witnesses the Most
Remarkable Exhibition of
Modern Times.

Dr. Russell the Man

Richmond hall, corner Nicollet avenue and Eighth street, was crowded to overflowing yesterday afternoon by an audience assembled to witness the healing of the sick by Dr. Russell. What power this man possesses cannot perhaps be easily explained. He performed some marvelous cures in what seemed a perfectly simple way. He cured many persons of deafness, rheumatism, lumbago, stiff joints, aches and pains of years' standing and one lady of paralysis. His work is without ostentation and the marvelous simplicity with which he does the work is truly astonishing. Among the many persons treated the writer noted the following: Mr. Rose, residing at 401 Washington avenue south, had been deaf for six years. After treatment he proved to the audience he could hear perfectly. Mr. Murphy, 911 First avenue north, suffered with a lame and painful back and shoulders for two years. All pain and lameness was removed and Mr. Murphy felt correspondingly happy. Mr. Landstrom, 2425 Tenth avenue south had suffered greatly with an intense and continuous pain over the region of the liver, extending down the right side, also pains in his shoulders. In ten minutes' treatment Mr. Landstrom declared he was free from all pain and laughingly declared that he felt as if he had been made over again. This cure caused a sensation. Miss Smith, 1215 West Thirty-third street, had suffered with deafness and throat trouble for sixteen years. After treatment she heard perfectly. Martin Nelson, lumbago and sciatic rheumatism, walked lame with a stick, but, after treatment, paraded around the hall feeling like a new man. He said he resided at the corner of Forty-seventh avenue and Fourth street. Another sensation was caused by a cure of paralysis of the left arm of a lady by the name of Mrs. Parker, residing at 1107 Sixth street south. This lady had been a sufferer for two years.

Those desiring private consultation and treatment will find Dr. Russell at the National Hotel where he will remain until all who require his services are accommodated. Consultation is free. But be sure and attend his free lectures and demonstrations at Walker Hall.

EMPLOYERS AND STRIKERS WILL
MEET AND ENDEAVOR TO
SETTLE TROUBLE.

Chicago, April 20.—Although influences are still at work in the hope that an amicable adjustment of the difficulty existing between the teamsters and Montgomery Ward & Co., can be reached, the indications now are that the strike of the teamsters will spread to other concerns in the near future. During the day 150 drivers employed by D. M. Forbes Teaming company were ordered on strike because the firm insisted on making deliveries to Montgomery Ward & Co., where the union teamsters are on strike in sympathy with the garment workers. President Shea of the International Brotherhood of Teamsters declared at night that he would order all drivers engaged by firms who shall insist on delivering supplies to the big store.

The New Employers' Teaming company began aggressive action against the striking teamsters during the day by delivering coal to Montgomery Ward & Co. Edward F. Daniels & Co., a private concern employing union teamsters, also made a delivery of coal to the firm where the teamsters are on strike, but the effort met with an obstinate opposition by the strike sympathizers. Before the delivery was made in the afternoon it was necessary for the secretary of the company who accompanied the driver with the load to draw his revolver to keep the crowd which congregated around the wagon in abeyance.

Several teaming companies have agreed to make deliveries Thursday to Montgomery Ward & Co. If the attempt is made by these firms to keep their promise, it is said by the officers of the teamsters' union that all of the union drivers in the employ of these companies will be ordered to quit work.

The Coal Team Owners' association have arranged for a conference with the employers' association when another effort to effect a settlement of the strike will be made. The team owners' association will present a proposition to arbitrate everything in dispute.

Nothing of a tangible nature is expected to result from this conference as Montgomery Ward & Co. have steadfastly refused to arbitrate the demands of the garment workers, although offering to accept conciliatory measures with the teamsters.

TO DISLODGE SETTLERS.

Deputy Sheriffs Leave Duluth for
Floodwood River.

Duluth, April 20.—Deputy Sheriff Walter Butchart and two other deputies left at night for Floodwood river to dislodge Erick Perkio and Mike Anderson, the two settlers who are holding up a log boom owned by Shusser & Collidge, claiming they have not been paid for rafting privileges through their land. Perkio and Anderson were visited by one deputy sheriff during the day but the latter did not tarry long. He came back to Duluth and reported that the two men were in grim earnest to shoot anybody who tried to serve them with warrants or other legal papers, and to not allow the logs to move. Perkio is said to be a man of great courage and determination, and it is feared that the authorities will have trouble in getting him to capitulate. The scene of the trouble is sixteen miles from the village of Floodwood.

WOMAN BRUTALLY MURDERED.

Clubbed to Death in Her Yard by a
Masked Man.

London, Ont., April 20.—Miss Eliza Lowry of Rodney was brutally murdered during the day at her home by a heavily masked man, supposed to be a tramp, who called at the house and demanded money. When he was refused he seized Miss Lowry and dragged her into the yard, where he beat her to death with a club. Farmers in every part of the country are aiding the police in the search for the murderer and threats of lynching are heard.

NEGOTIATIONS ARE OPENED.

Chicago Bargaining for Purchase of
Street Railways.

Chicago, April 20.—Negotiations for the purchase of the Chicago street railways were opened during the day between the traction representatives and the city. A proposition is pending under which the companies will at once proceed to modernize their lines and sell to the city at a fair price, thus getting rid of all local complications and securing immediate municipal ownership.

JOSEPH JEFFERSON BETTER.

His Condition Such as to Encourage
Hope of Ultimate Recovery.

West Palm Beach, Fla., April 20.—The change for the better in the condition of Joseph Jefferson has been so encouraging to the physicians and the family as to lead to the hope of ultimate recovery.

Mr. Jefferson is stronger now. Throughout the day and especially in the afternoon Mr. Jefferson called for food and was able to retain chicken broth and brandy and milk, after he had eaten with a great deal of relish half of a one-pound grape fruit.

Following two days of great anxiety the night brought great relief to Mr. Jefferson's family.

Mr. Jefferson is much better and is able to converse with those about him. At this hour everything is in his favor.

There is a cool breeze blowing from the ocean and the temperature has ranged during the day from 70 to 65 and is now stationary at 60. Mr. Jefferson has a room on the second floor of his cottage "The Reef," where he can observe the ocean. Mr. Jefferson has always been fond of the water and during the day repeatedly referred to the ocean.

LAKE STEAMERS SET FREE.

Fifty Vessels Get Out of the Ice and
Race for Port.

Sault Ste. Marie, Mich., April 20.—Led by the ice crushing steamer Algoma, the fleet of fifty upbound steamers, which have been icebound here for a full week, made its way during the day through the ice fields of Whitefish bay and out into clear water in Lake Superior. An exciting race for the ore docks at the upper lake ports immediately began, the size of the fleet making it apparent that many boats will have to wait for some time for their turn at the locks. As soon as the Algoma had made a way for the upbound fleet, she turned her attention to get the downbound fleet through the ice. It is expected this fleet will reach the Soo canal locks during the day.

DESIRE RESIGNATION

AGENTS OF EQUITABLE LIFE SOCIETY WANT JAMES H. HYDE
TO VACATE OFFICE.

New York, April 20.—After a protracted session behind closed doors the 200 or more general agents of the Equitable Life Assurance society adopted a resolution calling upon Vice President James H. Hyde to resign from his position with the organization and appointing a committee of five from their number to call on Mr. Hyde and present the demands.

Late at night announcement was made that the agents' committee appointed to wait on Mr. Hyde and present the resolutions asking his resignation had arranged to meet him at his home at 9 a. m. Mr. Hyde attended the theater at night and the agents held no further conferences. They will meet again in the morning to receive a report on the Hyde conference.

The agents went into conference at 11 o'clock a. m. and it was 3 p. m. before a recess was taken for luncheon.

When the recess was taken Mr. Hyde was informed that the committee of agents would reach his office at 5 p. m. He awaited their arrival in company with his personal counsel, Samuel Untermyer, Winslow Pierce and W. S. Gulliver.

At 5:30 the committee had not appeared and Mr. Hyde, with his counsel, left the office of the Equitable. Mr. Hyde said:

"I have not seen the committee and I have not seen the resolutions, but I consider them impertinent, extraordinary, insulting and most preposterous. I have no intention of resigning."

It was almost 4:30 p. m. when the agents again went into session and the latter part of the day's meeting was from all indications more peaceful than earlier in the day. It was said that in the earlier assemblage all but seventeen of the agents had voted to request Mr. Hyde's resignation and in support of Mr. Alexander. The number voting for the resolution is said to be 193.

DEED OF COCAINE FIEND.

Throws a Little Girl From an Eighty-
three-Foot Viaduct.

Cincinnati, April 20.—Charles Finch was arrested during the day charged with throwing Lauretta Kriekler, aged nine years, from the Liberty street viaduct to the ground below, a distance of eighty-three feet. The girl is in a serious condition and expected to die at any moment. Finch was identified by both the girl and her six-year-old brother, who was a witness to the crime. When arrested Finch is said to have been stuffed with cocaine, and a large box of the drug was found in his pocket.

Finch says he does not remember the occurrence. He met the boy and girl on the viaduct, took the boy's hat and when the girl told him not to touch it he tossed her over the viaduct rail and escaped.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution as assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Those desiring private consultation and treatment will find Dr. Russell at the National Hotel where he will remain until all who require his services are accommodated. Consultation is free. But be sure and attend his free lectures and demonstrations at Walker Hall.

Mrs. Gan, a pleasant old lady, residing at 1710 Seventh avenue south, had suffered continuous pain in her stomach and sides for three years. Nothing she did gave her any relief. Dr. Russell relieved her of all pain and she declared she felt like a new woman. Many others were treated and were either cured or greatly benefited. This is, indeed, a wonderful exhibition of healing power. —Minneapolis Journal.

LARGE AUDIENCES DAILY

Watch Phenomenal Healing—Most Marvelous Demonstrations Ever Witnessed in Minneapolis.

Dr. Russell's Wonderful Work at Richmond Hall

From Minneapolis Tribune, Sept., 1904: Nobody can form any idea of the marvelous cures performed by this man, unless they go to the above hall and see it done. Dr. Russell, in his remarkable healings, makes no extravagant claims to supernatural power, neither does he require blind faith on the part of the subject who comes to him for treatment. The serenity of skeptics in the power of natural healing receive a severe jolt upon witnessing the wonderful cures performed by Dr. Russell, day after day, in the presence of large and intelligent audiences. Among the many treated yesterday were the following whose names and addresses were obtained with difficulty owing to the immense and excited throng present: Mrs. Stalker, 509 Emerson avenue, constant headache for two years, was cured in a few minutes. Also the following who declared to the audience that they were perfectly relieved of their infirmities: Mrs. A. E. Johnstone, 400 University avenue Southeast, pain and stiffness in right arm three years; Mrs. Babar, 517 Fremont street North, rheumatism for twenty years; Mrs. Fenstead, 1309 Twenty-first street South, headache three years; Agnes Mitchell, 513 Tenth avenue South, deaf; Mr. Miller, 1405 Fourth street North, rheumatism 18 years; John Eke, 3321 Third street North, rheumatism 19 years; Mrs. Flood, 3016 Hennepin avenue, pains all through her body. At this stage of the proceeding the audience became so excited no other names could be obtained.

West Palm Beach, Fla., April 20.—The change for the better in the condition of Joseph Jefferson has been so encouraging to the physicians and the family as to lead to the hope of ultimate recovery.

Mr. Jefferson is stronger now. Throughout the day and especially in the afternoon Mr. Jefferson called for food and was able to retain chicken broth and brandy and milk, after he had eaten with a great deal of relish half of a one-pound grape fruit.

Following two days of great anxiety the night brought great relief to Mr. Jefferson's family.

Mr. Jefferson is much better and is able to converse with those about him. At this hour everything is in his favor.

There is a cool breeze blowing from the ocean and the temperature has ranged during the day from 70 to 65 and is now stationary at 60. Mr. Jefferson has a room on the second floor of his cottage "The Reef," where he can observe the ocean. Mr. Jefferson has always been fond of the water and during the day repeatedly referred to the ocean.

LAKE STEAMERS SET FREE.

Fifty Vessels Get Out of the Ice and Race for Port.

Sault Ste. Marie, Mich., April 20.—Led by the ice crushing steamer Algomah, the fleet of fifty upbound steamers, which have been icebound here for a full week, made its way during the day through the ice fields of Whitefish bay and out into clear water in Lake Superior. An exciting race for the ore docks at the upper lake ports immediately began, the size of the fleet making it apparent that many boats will have to wait for some time for their turn at the locks. As soon as the Algomah had made a way for the upbound fleet, she turned her attention to get the downbound fleet through the ice. It is expected this fleet will reach the Soo canal locks during the day.

DESIRE RESIGNATION

AGENTS OF EQUITABLE LIFE SOCIETY WANT JAMES H. HYDE TO VACATE OFFICE.

New York, April 20.—After a protracted session behind closed doors the 200 or more general agents of the Equitable Life Assurance society adopted a resolution calling upon Vice President James H. Hyde to resign from his position with the organization and appointing a committee of five from their number to call on Mr. Hyde and present the demands.

At night announcement was made that the agents' committee appointed to wait on Mr. Hyde and present the resolutions asking his resignation had arranged to meet him at his home at 9 a. m. Mr. Hyde attended the theater at night and the agents held no further conferences. They will meet again in the morning to receive a report on the Hyde conference.

The agents went into conference at 11 o'clock a. m. and it was 3 p. m. before a recess was taken for luncheon.

When the recess was taken Mr. Hyde was informed that the committee of agents would reach his office at 5 p. m. He awaited their arrival in company with his personal counsel, Samuel Untermyer, Winslow Pierce and W. S. Gulliver.

At 5:30 the committee had not appeared and Mr. Hyde, with his counsel, left the office of the Equitable. Mr. Hyde said:

"I have not seen the committee and I have not seen the resolutions, but I consider them impertinent, extraordinary, insulting and most preposterous. I have no intention of resigning."

It was almost 4:30 p. m. when the agents again went into session and the latter part of the day's meeting was from all indications more peaceful than earlier in the day. It was said that in the earlier assemblage all but seventeen of the agents had voted to request Mr. Hyde's resignation and in support of Mr. Alexander. The number voting for the resolution is said to be 193.

DEED OF COCAINE FIEND.

Throws a Little Girl From an Eighty-three-Foot Viaduct.

Cincinnati, April 20.—Charles Finch was arrested during the day charged with throwing Lauretta Kriekler, aged nine years, from the Liberty street viaduct to the ground below, a distance of eighty-three feet. The girl is in a serious condition and expected to die at any moment. Finch was identified by both the girl and her six-year-old brother, who was a witness to the crime. When arrested Finch is said to have been stupefied with cocaine, and a large box of the drug was found in his pocket.

Finch says he does not remember the occurrence. He met the boy and girl on the viaduct, took the boy's hat and when the girl told him not to touch it he tossed her over the viaduct rail and escaped.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution as assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
